

Due to ongoing street closures pm Union And Summit Streets, we have worked with the Milford Police Department to change both the parade route and the staging areas.

Instead of staging on Union Hickory and East Streets as we have in the past, we will be staging on West Liberty (by the Powerhouse). Participants may reach the staging area by going through Central Park off S. Main Street and exiting onto W. Liberty via the upper parking lot exit. Groups with horses and horse trailers may use the Central Park upper parking lot for unloading and may leave their trailers and vehicles there for reloading after the parade. We will be staging the parade on both sides of W. Liberty. Look for a stake with your parade slot number. Slot numbers will be assigned in mid-June. There will be parade volunteers to help with staging.

The parade route has also changed. The parade will step off at 11:00 AM at the corner of Cabinet and Commerce Streets and proceed east (much like the Memorial Day parade). The parade will turn south on Main Street and proceed down Main Street until reaching the entrance to Central Park where the parade ends. Participants with vehicles may proceed through the park and exit back onto W. Liberty Street and use Cabinet again to get back to Commerce.
